

## DC/DC - Converters

## DC2

### Characteristics:

- Supply voltage 19...32VDC
- Output  $\pm 15\text{VDC} / \pm 250\text{mA}$
- Regulated, short circuit proof
- Status display in front panel
- Galvanic isolation
- Mountable on 35mm cap rail TS35
- Clear terminal labeling
- Narrow design
- Shape 22,5mm,
- High reliability, 5 years warranty

### Description:

The units of the DC/DC - converters series DC2 make available a symmetrical, controlled voltage to the user. They are clocked converters and therefore very low-loss. One LED in output displays the ON-position. For easy installation are the devices mountable on standard cap rail TS35.

### Application:

To be used in switchgears or control desks, where no main voltage is desired. Supply of analog electronic.

### Order-No:

#### Output:

**DC2-3**                       $\pm 15\text{VDC} / \pm 250\text{mA}$

## Technical data:

### Auxiliary power:

---

Supply voltage	:	19...32VDC
Efficiency	:	>80%
Power consumption	:	max. 10VA

### Outputs:

---

Output voltage	:	±15V / ±2%
Load regulation	:	0, 5% at load change 20%...100%
Ripple, noise	:	< 60mVp-p
Output current	:	± 250mA, short circuit proof < 30s
Clock frequency	:	min. 50 kHz
Insulation voltage	:	Input / output: 1kVDC

### General data:

---

Operating temperature	:	-10...60°C
Storage temperature	:	-25...+85°C, condensation before putting into operation is not allowed
MTBF	:	78 years Mean Time Between Failures – according to EN 61709 (SN 29500). Conditions: Stationary operation in clean rooms, average ambient temperature 40 °C, permanent operation without forced ventilation
CE conformity	:	EN61326-1, EN 61000-4-2/3*/4/5/6*, EN 61000-6-4 * during measurements are small deviations possible

---

Dimension	:	22,5mm adjoin body, 22,5x114,5x104,5mm (with terminals)
Material	:	PA / V0
Protection category	:	IP20
Connection	:	M3-screw-type terminal 0, 14 - 2,5mm <sup>2</sup> , flexible or inflexible
Fixing	:	Snap-on mounting for norm rail TS35
Weight	:	150g

**Note on safety:**

---

Disconnect the power supply before attempting to open the unit.

During the operation of this module it is possible that parts of the module, even there is extra-low voltage, (for example shunt measurement) are under dangerous voltage! Therefore a non-observance of this caution may cause damage of property or physical injury.

Only trained qualified personnel should install or operate the unit. Before installation the qualified personnel should read the documentation and should familiarize themselves with the unit.

If there is visible damage to the body of the unit it should be immediately replaced and not put into operation.

Please ensure that there is a sufficient prevention against electrostatic discharge during installation of the unit.

**Installation Information:**

---

Pay attention and make sure the unit is far away from mounted sources that may disturb the device such as magnetic coils, transformers, frequency converters etc.

**Wiring advise:**

---

Use only shielded cables. The shield is to be connected extensively to earth. Do not mix power- and signal-wires/cables in the same cable tray.

**Limited guarantee:**

---

The LEG Industrie-Elektronik GmbH warranted that the product does not have any material or processing defects in a period of 5 years after date of delivery.

It is up to the choice of LEG to repair or to exchange an inoperative unit.

Subsequent damages or any claim for indemnification above the functionality of the unit are excluded.

This limited warranty is only valid if ...

1. the product was installed and put into operation according to the LEG operation documentation;
2. the technical configuration of the power supply was abided;
3. the product was not used for unintended purposes;
4. there were no unauthorized modifications or manipulations, misuse or repairs without previous agreement from LEG .

Our Terms of Trade are based on the "General Conditions for the supply of products and services of the Electrical and Electronics Industry" including the "Complementary Clause: Extended Reservation of Property" of the ZVEI e.V. (German Association of Electrical Manufacturers).

**Miscellaneous:**

---

We expressly reserve the right, without previous notice, to correct errors contained in any data of this information brochure, and to make alterations to the program and technical modifications.
